1:45 pm - 3:00 pm - **Credit Matters! Let's Visit Pricing Feedback & Market Technicals That Have Restored Investor Returns Despite Standardization of Ratings & Covenants**

With the recent market turbulence, investors have become more discerning. Should an A- or BBB-rated hospital with no mortgage or debt service reserve fund price better than a similarly rated tax backed credit, university, or charter school? But wait, one credit has more cash, the other has more coverage, the other has a tax base! If each had the same rating, which one should the portfolio manager choose? This panel will discuss distinctions between rating, collateral, and coverage in various municipal sectors and market feedback loops to price and trade bonds in 2023's primary and secondary markets.

Moderator: *Yaffa Rattner*, Senior Managing Director, Hilltop Securities

Water issues are now regular headline news stories especially in Western states with record low levels at Lake Mead and Lake Powell. This panel will examine some factors that may be disrupting or altering the water cycle, how the related engineering and resource management challenges might be met in the future, and finally, what types of water system projects investors in municipal debt markets might want to focus on when considering the steady and reliable delivery of this vital and necessary resource.

4:15 pm – 5:15 pm - **Third Breakout Hour - Breakouts 2, 3, 5, 6**

Breakout 1 – Buses, Trains, Subways, & Where Are the Riders?

Clearly, mass transit ridership is unlikely to return to the pre-pandemic levels in the medium-term, given the prevalence of hybrid work. Meanwhile, the transportation industry is facing headwinds such as the rise in supply chain/labor costs and the growing demands for advanced technological solutions to further reduce their carbon footprint. This panel will explore what the future holds for mass transit and the focus on modernization of existing operations in the post-pandemic world.

Moderator: *Cindy Wu*, Director, Citi

Panelists: *Elizabeth Reich*, Chief Financial Officer, Dallas Area Rapid Transit; *Linda Vanderperre*, Senior Director, Public Finance, KBRA; *Collin De La Bruere*, Vice President, Municipal Credit, Bank of America

Breakout 2 - Health Status of Healthcare: Critical Condition

The CARES Act and other state and federal funding sources provided much-needed liquidity that kept many healthcare systems afloat during the pandemic. Now that many pandemic-era programs have expired, healthcare systems face compounding challenges – patient volumes have not returned to pre-pandemic levels, costs are at an all-time high, and labor shortages have impacted ability to deliver services. This panel will discuss the current state of healthcare post-pandemic and potential long-term implications, and will offer strategies and solutions for navigating a path forward.

Moderator: *Seth Brumby*, Deputy Managing Editor - Municipals, Reorg

Panelists: *Matt Robbins*, Managing Director, Kaufman Hall; *Chad Golder*, Deputy General Counsel, American Hospital Association; *Douglas Kilcommons*, Managing Director, Public Finance, KBRA

Breakout 3 – Relative Value Workshop

Fundamental credit analysis is critically important but only tells part of the story. Analysts must continue to develop this critical skillset to improve their effectiveness in the workplace. This workshop will allow for practice exploring relative value using several case studies building upon the webinar from last fall. Attendees will be expected to participate in small group discussions. Space is limited.

Moderator: *Spencer Cook*, Vice President, Municipal Credit, Zions Bancorporation

Panelists: *Patricia Healy*, Senior Vice President of Research and Portfolio Manager, Cumberland Advisors; *Steve Hlavin*, Vice President, Nuveen Investments; *Kyle Javes*, Managing Director, Piper Sandler

Breakout 4 – Catch Me If You Can – Alternative Recoveries

Your bonds have defaulted and you are wondering “what are my options?” Other than a workout or a bankruptcy, what else can I do? Securities fraud litigation, breach of contract litigation, D&O litigation – or some other creative solution. This panel will discuss alternative recoveries for the bondholders.

Moderator: *Valeri Pappas*, Managing Partner, Davis & Ceriani, PC

Panelists: *Julie Becker*, Senior Vice President, Workout Specialist Distressed Debt & Specialty Corporate Trust, UMB Bank; *John Elrod*, Shareholder, Greenburg Traurig, LLP; *Jonathan Chirunga*, Managing Director, Portfolio Manager, and Deputy Director of Municipals, Amundi Pioneer

Breakout 5 – Averting Irrelevancy: How to Future-Proof Your Skills Toolbox in an Increasingly Automated & Artificially Intelligent World

It is critical to adapt and continue to learn new and relevant skills to “future-proof” one’s analytical toolbox in today’s fast and ever-changing economy. Advances in automation and artificial intelligence and the availability of all kinds of information require analysts to be tech savvy to stay relevant, valuable, and effective. This panel will discuss the hard skills and competencies that managers look for from analysts like proficiency in relative value trading, understanding ESG risks, ability to create complex financial models, and foresight to identify emerging risks, and others, while using technology effectively. This panel will also discuss important soft skills and other valuable strategies in today’s changing workforce.

Moderator: *Maria C. Sazon*, Director, Public Finance, Assured Guaranty

Panelists: *Laura Howe*, Director, PFM Financial Advisors LLC; *Julia Harris*, Managing Director and Head of Higher Education, Siebert Williams Shank & Co., LLC; *Katie Bourget*, CFA, Vice President, Head of Municipal Research, Fixed Income Investments, Travelers
